

Convenient, simple and cost effective **Bill Payment, Internet Payment and Custom Payment** Solutions for your business....

## Invoice Payments by Phone, Web and Direct Debit

Providing a range of convenient payment alternatives on your invoice is an effective way to maximise your working capital and minimise your administration. The easier you make it for your customers to pay your invoice, the quicker you will receive the funds, the higher your cash at bank and the lower your effort will be to collect and reconcile your debtors.

**Off the shelf, user friendly, secure and reliable fully hosted payment systems ready for your business!**

### *Convenient payment options for your customer*

Phone

Australia's favourite way to pay a bill! Enable your customers to pay by calling an automated 1300 bill payment service. They can use their Visa, MasterCard, Amex or Diners Cards. Alternatively, they can trigger a payment from their nominated Cheque or Savings Account using Customer Initiated Direct Debit.

- All invoice number Check Digit Routines supported
- Accept any payment amount or lock payments down to specific invoice values using Data Base Look Up

Direct Debit

Do away with the need for your customers to pay your bill by enabling them to set up an automated payment from their Cheque or Savings Account. Now your driving the payment - a great way to ensure your cash flow! You can also set up automated payments from Credit and Charge Cards.

Internet

A convenient and very popular way to pay a bill. Give your customers the convenience of web payments with the same features as over the phone payments.

## Internet Payments

Ideal if you have a web presence and suitable for **Shopping Carts, Online Catalogues, Booking Engines and Payment Pages**.

Accept payments over the web and get real time authorisation, ensuring you'll receive payment and confirming that it's safe for you to fulfil the order<sup>(1)</sup>. We have a broad range of **Hosted Payments Page** and **API Applications** that will suit almost any technology platform, ensuring a quick and easy implementation.

Your technical team will love our easy to use **Implementation Guides**.

"Every month, one in 10 people in Australia use one or more of the 11,000 systems built and hosted by SecurePay to conduct their secure electronic transaction"
